

OPBRENGSTE per landdrosdistrik / YIELDS per magisterial district – Junie 2015

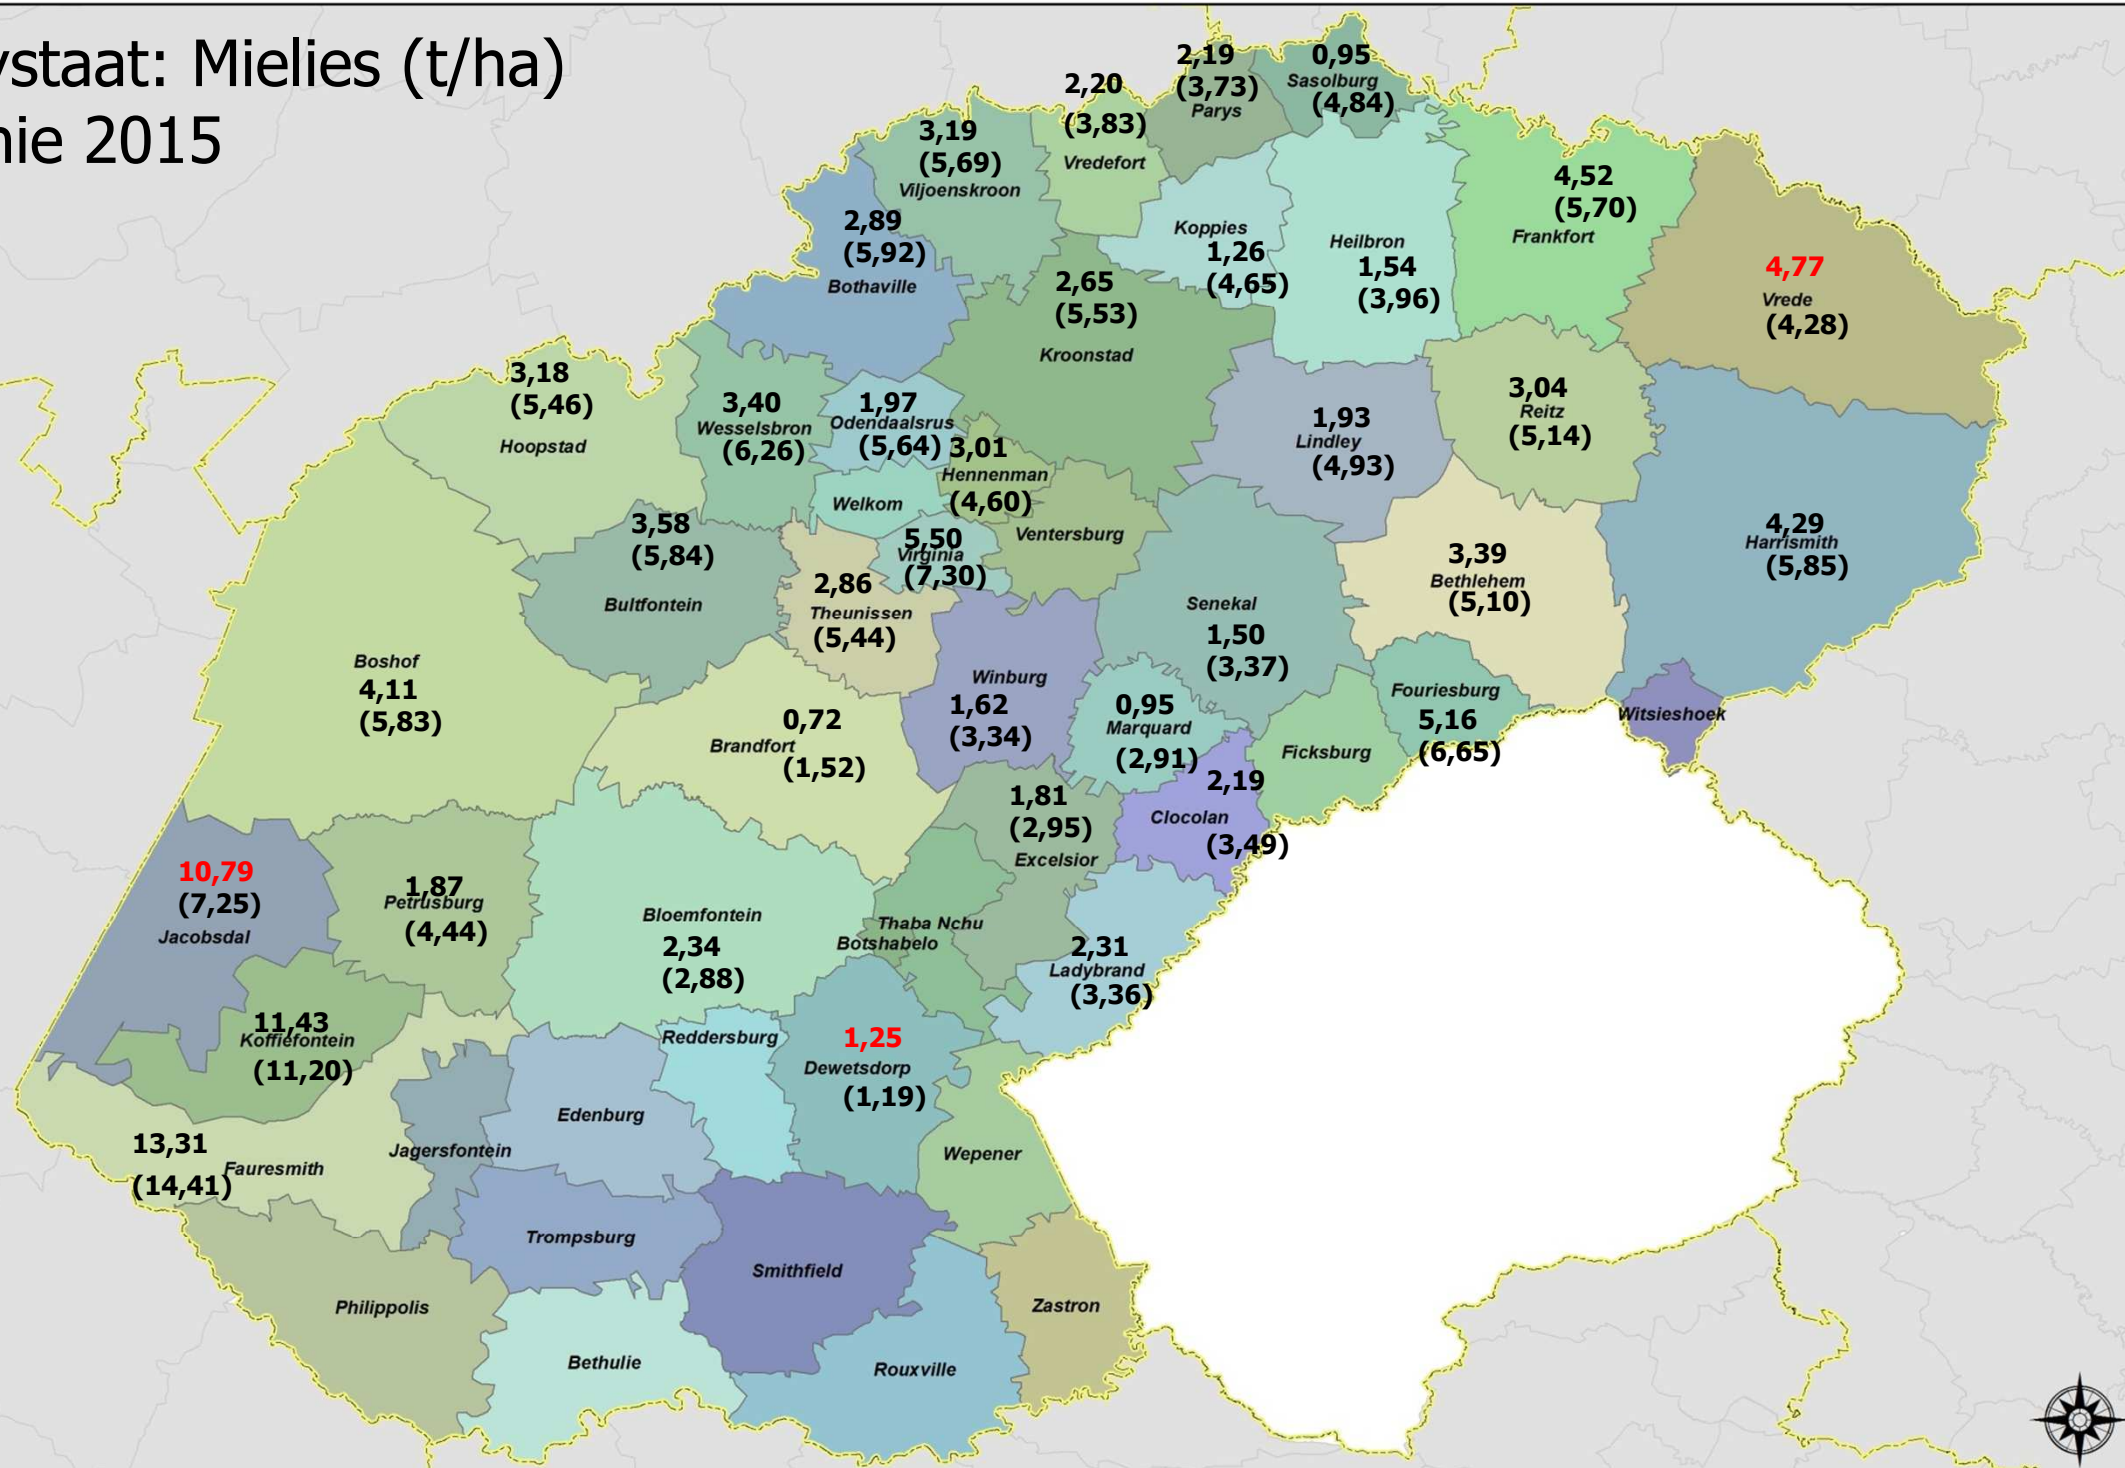

Opbrengs-inligting is soos verkry vanaf steekproef van produsente van die Departement van Landbou, Bosbou en Visserye / *Yield information as obtained from sample of producers of the Department of Agriculture, Forestry and Fisheries*

- Syfer in hakies dui opbrengs van vorige seisoen (2014) aan / *Number in brackets indicates yield of last season (2014)*
- Syfer sonder hakies dui opbrengs vir huidige seisoen (Junie 2015) aan / *Number without parentheses indicate yield for current season (Junie 2015)*
- Waar geen opbrengs aangedui is nie, was steekproef te klein om “akkurate” gemiddelde te bereken / *Where no yield is indicated, sample was too small to calculate "accurate" average*
- Dele in “rooi” aangedui, dui op *hoër* verwagte opbrengs as vorige seisoen / *Parts in "red" indicate higher expected yields than last season*
- **LET WEL:** Die Komitee skat nie produksie op landdrosdistriksbasis nie, maar wel op provinsiale basis!! / **NOTE:** *The Committee does not estimate production per magistrate basis, but on provincial basis!*
