## What is new on the NAMPO App? Is your profile complete and up to date?

Good day exhibitors,

So what is new on the NAMPO App this year?

The NAMPO App will have a **brand new "Leads Manager" feature** this year for you to load and manage all your leads easily and effortlessly with:

- Personalised QR codes (an alternative to business cards) for farmers to scan and save your details directly to their mobile phone; and
- A contact button on your profile for customers to fill in their details and queries so you can allocate the lead and turn them into sales.

The early bird also catches the worm, so we have already **started updating all info already on the NAMPO App for FREE.**

Please let your FarmSpace representative know the following by the 15th of February:

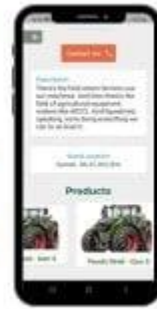

1. Is your **basic listing info up to date** and still relevant?
2. Are your **products on the NAMPO App**? If you want them loaded or updated please contact your FarmSpace representative.

**NAMPO APP**

**Make sure your details are up to date!**

Are all of your products loaded on the App?

**For more info on the above please contact:**

- Angeliqa Vorster
- [angeliqa@farmspace.co.za](mailto:angeliqa@farmspace.co.za)

We are looking forward to assisting you and ensuring your profile is ready for NAMPO 2024!
