CBOT-mieliepryse het gister laer verhandel namate gunstige weerstoestande in die Amerikaanse Midde-Weste die vooruitsigte vir die nuwe mielie-oes verder verbeter het. Wydverspreide reën en warmer temperature het die mark onder druk geplaas, terwyl verwagte reën in dele van die westelike Mielie Belt ook bygedra het tot die negatiewe sentiment. Handelaars het verder versigtig gebly in afwagting op die komende USDA Acreage-verslag, wat ekstra druk op mielie-termynkontrakte geplaas het.

CBOT corn prices traded lower yesterday as favourable weather across the U.S. Midwest continued to boost expectations for the new corn crop. Good rainfall and warmer temperatures improved crop prospects, while expected rains in the western Corn Belt added further pressure to the market. Traders also remained cautious ahead of the upcoming USDA Acreage report, which contributed to weaker sentiment in corn futures.

CBOT-sojaboonpryse het gister laer verhandel namate gunstige weerstoestande in die Amerikaanse Midde-Weste die vooruitsigte vir die nuwe sojaboonoes verder verbeter het. Goeie reënval en oor die algemeen gunstige groeitoestande het verwagtinge van 'n sterk Amerikaanse sojaboonoes versterk, wat pryse onder druk geplaas het. Die mark het ook verdere druk ervaar weens ruim wêreldvoorraadvlakke van sojabone en versigtige handelaarsposisionering voor die komende USDA Acreage-verslag.

CBOT soybean prices traded lower yesterday as favourable weather conditions across the U.S. Midwest continued to improve crop prospects for the new season. Good rainfall and generally favourable growing conditions reinforced expectations for a strong U.S. soybean crop, which weighed on prices. The market also faced additional pressure from ample global soybean supplies and cautious trader positioning ahead of the upcoming USDA Acreage report.

CBOT KC HRW-koringpryse het gister laer verhandel namate die Amerikaanse winterkoringoes steeds druk op die mark geplaas het. Verbeterde reënvoorsigte in dele van die Amerikaanse Vlaktes het ook sommige weersbekommernisse verlig, terwyl swak uitvoervraag en sterk mededinging van goedkoper wêreldkoringvoorrade verder tot die swakker marktoon bygedra het. Handelaars het ook versigtig gebly in afwagting op komende USDA-verslae, wat verdere druk op koringfutures geplaas het.

CBOT KC HRW wheat prices traded lower yesterday as the ongoing U.S. winter wheat harvest continued to place pressure on the market. Improved rainfall prospects in parts of the U.S. Plains also eased some weather concerns, while weak export demand and strong competition from cheaper global wheat supplies added to the softer market tone. Traders remained cautious ahead of upcoming USDA reports, which further weighed on wheat futures.
