CBOT-mieliepryse het gister laer verhandel namate gunstige weerstoestande in die Amerikaanse Middeweste die vooruitsigte vir die 2026-mielieoes verder verbeter het. Vooruitsigte vir wydverspreide reën en oor die algemeen goeie groeitoestande het druk op pryse geplaas, terwyl swakker ruoliepryse en 'n sterker Amerikaanse dollar verdere negatiewe sentiment tot die mark bygedra het. Verwagtinge van ruim wêreldvoorraad, insluitend sterk Suid-Amerikaanse produksie, het ook die mark onder druk gehou.

CBOT corn prices traded lower yesterday as favourable weather conditions across the U.S. Midwest continued to improve prospects for the 2026 corn crop. Expectations for widespread rainfall and generally good growing conditions placed pressure on prices, while weaker crude oil prices and a stronger U.S. dollar added further negative sentiment to the market. Expectations of ample global supplies, including strong South American production, also kept the market under pressure.

CBOT-sojaboonpryse het gister hoër verhandel nadat tegniese aankope en kortdekking ondersteuning aan die mark gebied het. Die mark het ook steun gekry uit voortgesette verwagtinge van uitvoervraag na Amerikaanse sojabone, terwyl handelaars die weerstoestande in die Amerikaanse Middeweste fyn dopgehou het.

CBOT soybean prices traded higher yesterday as technical buying and short covering provided support to the market. The market also received support from continued expectations of export demand for U.S. soybeans, while traders closely monitored weather conditions across the U.S. Midwest.

CBOT KC HRW-koringpryse het gister laer verhandel namate die voortgesette Amerikaanse winterkoringoes en verbeterde oesvordering druk op die mark geplaas het. Gunstige oestoestande het verwagtinge van groter korttermynvoorraad verhoog, terwyl swakker ru-oliepryse en breër druk in kommoditeitsmarkte ook tot die negatiewe sentiment bygedra het.

CBOT KC HRW wheat prices traded lower yesterday as the ongoing U.S. winter wheat harvest and improved harvest progress placed pressure on the market. Favourable harvesting conditions increased expectations of larger near-term supplies, while weaker crude oil prices and broader pressure across commodity markets also contributed to the negative sentiment.
