CBOT-mielietermynkontrakte het Vrydag laer gesluit, aangesien die mark onder druk gekom het van winsneming en 'n breër verswakking in die graankompleks. Volgens Farm Progress het mieliepryse tot 'n drie-week laagtepunt gedaal namate die mark van sy onlangse hoogtepunte teruggesak het, terwyl die versnelling van die Amerikaanse oes ook druk op pryse geplaas het. Handelaars het verder op die komende ontmoeting tussen Donald Trump en Xi Jinping gefokus, met die mark wat op moontlike verdere Chinese aankope van Amerikaanse landbouprodukte wag

CBOT corn futures closed lower on Friday, as the market came under pressure from profit-taking and broader weakness across the grain complex. According to Farm Progress, corn prices fell to a three-week low as the market retreated from its recent highs, while the accelerating U.S. harvest also placed pressure on prices. Traders were also focused on the upcoming meeting between Donald Trump and Xi Jinping, with the market awaiting potential further Chinese purchases of U.S. agricultural products.

CBOT-sojaboontermynkontrakte het Vrydag skerp laer gesluit, onder druk van winsneming ná die onlangse styging, verhoogde oesdruk in die VSA en verwagtinge van ’n groot Brasiliaanse sojaboonoes. Die mark het ook gefokus op die komende Trump-Xi-vergadering, met onsekerheid oor verdere Chinese aankope van Amerikaanse sojabone. Swakker sojaboonmeel- en sojaoliepryse het verdere druk op die sojaboonkompleks geplaas.

CBOT soybean futures closed sharply lower on Friday, under pressure from profit-taking following the recent rally, increasing U.S. harvest pressure and expectations of a large Brazilian soybean crop. The market also focused on the upcoming Trump-Xi meeting, with uncertainty surrounding further Chinese purchases of U.S. soybeans. Weaker soybean meal and soybean oil prices added further pressure to the soybean complex.

CBOT KC HRW-koringtermynkontrakte het Vrydag laer gesluit, onder druk van fondsverkope en kommer oor die tempo van Amerikaanse koringuitvoere. Die Amerikaanse uitvoertempo vir 2026/27 was steeds 30% laer as dieselfde tyd verlede jaar, terwyl voortgesette Russiese en Oekraïense koringverskepings tot mededinging in die wêreldmarkte bygedra het. Verkope voor die naweek het ook tot die breër verswakking in die Amerikaanse koringkompleks bygedra.

CBOT KC HRW wheat futures closed lower on Friday, pressured by fund liquidation and concerns over the pace of U.S. wheat exports. The 2026/27 U.S. wheat export pace remained 30% below the same period last year, while continued Russian and Ukrainian wheat shipments added to competition in global markets. Selling ahead of the weekend also contributed to the broader weakness across the U.S. wheat complex.
